# LOGIN TO YOUR iHUB BACK OFFICE TO RESERVE A HOTSPOT MINER:

**Hub.global** Reserve your Free Hotspot Deployment via HeliumTrack

To reserve your free hotspot deployment, this process must now be done through HeliumTrack.

For anyone who has previously reserved their hotspots via the iHub Backoffice, we will automatically attempt to import these reservations into HeliumTrack. You will be notified of any issues or required action needed on your part to finalize your hotspot reservation. You can use your existing login to access the HeliumTrack.app

Step 1: Contact Information

Step 2: Shipping Address

Step 3: Install Address

Step 4: Terms and Conditions

Shipping times will be adjusted based upon iHub Global's available supply.

**Important:** You will be required to validate this address to ensure you have access to the location. DO NOT submit addresses that you do not have permission or access to place hotspots.

**TERMS AND AGREEMENT DOCUMENT**

- I agree to the terms in the document above to all risks and changes that may occur from today and until the time the hotspots become available
- I agree and understand I will be required to provide an address as to where I will be having this hotspot
- I agree and understand that I may be required to pay a fee upon shipping
- I understand that the delivery time frame for this will be Summer/Fall 2021 and can change based on availability
- I understand that I will be required to supply an install address that will be verified before shipping

# CONTACT THE LIST

Hey (Prospect's Name), (Your Name) here.

How are you doing?

Did I catch you at a bad time or do you have 3 minutes to talk?

(If they don't have time, tell them you will call them back)

If they have time.

(Prospect's Name), the reason I'm calling is, I was contacted by a buddy of mine who is with a company that is building out a new wireless network for the Internet of Things and 5G.

Are you familiar with any of that stuff?

(It doesn't matter what your prospect says) You say...

Well, I knew a little bit about it but what caught my attention was... instead of building out the infrastructure for the IoT and 5G with big companies and big towers that transmit radio waves that are not biologically safe they're building out a decentralized network utilizing existing homeowners and small businesses to create the mesh. It's pretty cool. And everything that they're doing is biologically safe.

Their goal is to deploy 35 million hubs through out the world by 2025 and they're just getting this deployment started. In fact, they have less than 100 thousand hubs deployed right now.

And this is why I am calling... once the mesh is built... it is done. So, there are only going to be so many of these hubs deployed in (Prospect's area)

And if your property qualifies for one of these Hubs, they'll pay you.

I did a site survey for my home and my location qualified, and they sent me a hub at no cost... that I put on a window cell of one of our spare bedroom's upstairs and it made me over \$400 in my first month.

If you're open to it, I'd like to do a site survey to see if your property qualifies. And if it does, then you can decide if you'd like to take them up on Hosting one of their Hubs or not. Sound fair?

But just so you know, it's first come first served. If someone else in your area does a site survey that qualifies before you, then they get the hub. Make sense?

So, would you like to see if your location qualifies for a hub?

(If they are not positive) Tell them...

No problem, I just thought I'd check with you before I call someone else for your area.

(If they start to ask questions) Tell them...

I'll text you a link to a 2-minute video that you can check out and if you like what you see, you can fill out the form for the site survey, and if it doesn't do anything for you, you can just ignore it. Fair enough?

(If they say "YES" they'd like to see if their location qualifies) say...

I'll text you a link to a short 2-minute video that covers a little bit more and there is also a form on that page where you can enter your address. And as soon as I get your site survey results, I will let you know.

Give me about 2-minutes and I will text you the link.
