Difference between Hummers & Ringers

“Hummers”

These units use a low intensity gauss PEMF to deliver preset frequencies that **resonate receptors** at the cell membrane

PEMF vibration is NOT felt by the person

Requires longer treatment time sessions

“Ringers” Our PEMF Devices

These units use a high intensity PEMF Pulse to deliver harmonic impulses that **resonate the entire cell membrane**.

Instant results and mild to strong PEMF sensations are felt by the person

Short term treatment time sessions can achieve results

A sample of results achieved with the home/Clinic unit

**My Surgeon was amazed
on how fast I healed!!!**

*This healing happened in
less than 28 days thanks
to the iZeePulse Home
PEMF Unit*
